

Carrollton, TX

Fence permit planning sheet

REVIEWED OCTOBER 24, 2026 / CITY JURISDICTION ONLY

The starting point

For covered new fencing, prepare the plot plan or survey and drawings or detailed design description. Apply through CityServe, confirm contractor registration or the owner exception, pay applicable charges and resolve reviews. Obtain issuance before construction and request the fence final. Confirm front/key-lot layouts and special conditions with the city; repair exceptions are not new-fence permission.

Before work starts

- ☐ Confirm City of Carrollton jurisdiction, single-family/duplex scope, zoning/PD and actual property lines.
- ☐ Describe the new fence line, full height, material, gates and any pool, retaining or powered function.
- ☐ Resolve front/key-lot conflicts, grade, sight distance, screening walls, drainage and easement conditions with staff.
- ☐ Prepare the required new-fence plot plan/survey and design details; confirm applicant and registration roles.
- ☐ Apply in CityServe, confirm the fee calculation, respond to review and obtain required issued approvals.
- ☐ Build to approved plans, arrange the required fence final and keep completed permit and inspection records.

Not a permit, property survey, engineering plan or legal determination.

Confirm current rules, site conditions and required approvals with the authority.
