FENCE ADVISORS

Enid, OK

Fence permit planning sheet

REVIEWED OCTOBER 24, 2026 / CITY JURISDICTION ONLY

The starting point

Enid zoning 11-17-6 requires a permit before fence erection or construction. Complete the current fence form with ground-grade heights, materials, legal description, valuation and responsible contacts. Return it to Community Development or EnidCD@enid.org. Confirm drawings, fees and special review; obtain approval before work. Protect walkways, drainage and utility access. Call 580-616-7213 at completion and confirm final review.

Before work starts

- [ ] Confirm City of Enid jurisdiction, zoning and actual property lines, not only the mailing address.
- [ ] Describe new, replacement or repair work and identify any pool, retaining, electrical or special-zone scope.
- [ ] Check solid-front placement, intersection visibility, walkways, rights-of-way, drainage and utility easements.
- [ ] Prepare the current fence application with yard heights, materials, legal description and responsible contacts.
- [ ] Confirm supporting plans, present code-cycle requirements, posted fee components and any additional approvals.
- [ ] Obtain required approval before work, make the completion call and retain applicable inspection/final records.

Not a permit, property survey, engineering plan or legal determination.

Confirm current rules, site conditions and required approvals with the authority.
