# Glendale, AZ

## Fence permit planning sheet

REVIEWED OCTOBER 24, 2026 / CITY JURISDICTION ONLY

### The starting point

Glendale's adopted 2024-code amendments exempt ordinary fences not over 7 feet, but not swimming-pool barriers or perimeter subdivision fences. This is not a zoning height allowance. Confirm city jurisdiction, zoning/PAD/PRD, placement and special scope with Planning and Building Safety. For permit-required work, use the current residential application and applicable PDF plans; the electronic-plan page directs project types not specifically listed to permits@glendaleaz.com. Confirm any required zoning clearance, actual fee invoice and inspections before work.

### Before work starts

- [ ] Confirm Glendale, Arizona municipal jurisdiction, zoning/PAD/PRD and actual property lines.
- [ ] Describe new, replacement or component repair work and any pool, retaining or powered-gate function.
- [ ] Ask Planning to confirm applicable yard height, material, measurement, visibility and easement conditions.
- [ ] Confirm the building-permit exemption or required permit and any separate Planning clearance.
- [ ] Prepare the applicable residential form and PDF plans; verify submission route and actual fees with staff.
- [ ] Obtain required issued approvals before work, follow inspections and retain approved plans and final records.

**Not a permit, property survey, engineering plan or legal determination.**

Confirm current rules, site conditions and required approvals with the authority.
