FENCE ADVISORS

Keller, TX

Fence permit planning sheet

REVIEWED OCTOBER 24, 2026 / CITY JURISDICTION ONLY

The starting point

Confirm actual Keller city limits, then prepare the fence plot plan and required application documents. A nonowner applicant needs the packet's notarized Owner Affidavit; contractors must have current city registration. Use CSS through the city's official application route, respond to review and confirm the actual invoice and issued approval before construction. Request the required fence final through the current inspection instructions. No numerical corner setback, universal height limit or repair exemption is supplied here.

Before work starts

- [ ] Confirm actual City of Keller jurisdiction, district/PD, plat and property/easement boundaries.
- [ ] Describe the new fence line, material, overall height, gates and any pool, retaining or powered function.
- [ ] Have staff confirm current height, grade, street/corner, visibility, drainage and screening-wall requirements.
- [ ] Prepare the fence plot plan, required owner authorization and current contractor registration information.
- [ ] Apply through the city's CSS route, respond to review, confirm fees and obtain required issued approvals.
- [ ] Build to approved plans, request the required fence final and retain completed inspection records.

Not a permit, property survey, engineering plan or legal determination.

Confirm current rules, site conditions and required approvals with the authority.
