FENCE ADVISORS

Oklahoma City, OK

Fence permit planning sheet

REVIEWED OCTOBER 23, 2026 / CITY JURISDICTION ONLY

The starting point

Oklahoma City's fence checklist requires a licensed fence contractor to submit residential fencing unless the homeowner constructs it. Prepare a scaled site plan, property/legal description, length, height and construction type. Design-district elevations and pool gates need additional attention. Confirm permit applicability, zoning height and fees with Development Center at 405-297-2525; submit PDFs through the city's Access portal when required.

Before work starts

- [ ] Confirm Oklahoma City jurisdiction, zoning and design-district status.
- [ ] Record the legal description, address, owner/applicant and proposed cost.
- [ ] Prepare the scaled site plan with each fence run and its length.
- [ ] Add height, materials and any district-specific elevations.
- [ ] Resolve pool gates and engineering for applicable retaining walls.
- [ ] Confirm fees and applicability; submit PDFs and arrange required inspections.

Not a permit, property survey, engineering plan or legal determination.

Confirm current rules, site conditions and required approvals with the authority.
